

Hello,

Welcome to Webcast 1 and the Webcast 1 NETWORK.

Webcast 1 is a full service web site design, hosting, web marketing & web site maintenance company.

Since I started the company in 1996, we have been helping our clients Webify their businesses by showing them new ways to leverage the immense power of the world wide web.

Over the last several years, we have worked with companies ranging from small start-ups to Fortune 500 firms. We pass our ever broadening knowledge base and experience on to each other and to each new client we work with.

At Webcast 1, our team of highly skilled specialists works together in synergy to create dynamic, engaging and useful web sites. From graphic artists to data base programmers, from copy writers to search engine marketers, Webcast 1 features a team of talented and outstanding individuals who are passionate about helping you take advantage of the world wide web. This holistic, multi disciplinary approach to web design creates the kind of web sites that will please you and your employees and keep customers coming back for more.

At the core of our business philosophy is a critical formula:  
Interface + Infrastructure x Marketing = Internet Success.

Contact a Webcast 1 consultant to learn how you can put our formula for success to work for you.

Webcast 1 is also a key component within the Webcast 1 Network...a series of popular web business sites that includes logodesign.com, flashwiz.net, banneradvertising.us, searchwizmarketing.com, emailings.com and the searchwiz.com meta search engine.

I invite you to explore our website to learn how this formula is put into action. Throughout webcast1.com, you will find examples of fresh design and dynamic applications that could make your own web site more attractive and interactive.

In today's tenuous economic climate, it is important to continuously evaluate your internet strategy to determine whether you are fully harnessing the power of the web to it's greatest potential. Having a team like Webcast 1 behind you will help ensure that you ride the power of the web.
